1 Introduction

This is a simple paragraph of text. LaTeX automatically handles spacing, indentation, and line breaks. You can write normal sentences here, and they will be formatted neatly in the final PDF.

1.1 Formatting

You can make text **bold**, *italic*, or underlined. You can also write inline math like $E = mc^2$.

2 Lists

Here is a bullet list:

- First item
- Second item
- Third item

And here is a numbered list:

1. Step one
2. Step two
3. Step three

3 Math

Inline math: $a^2 + b^2 = c^2$.

Display math:

$$\int_0^\infty e^{-x^2} dx = \frac{\sqrt{\pi}}{2} \tag{1}$$

4 Conclusion

That's it! Save the file and compile it to see the PDF.
